# GROUP MANAGEMENT REPORT

SLM Solutions Group AG ("SLM Solutions", "SLM" or the "Company") is a forward-thinking technology Company that has consistently created world firsts in the field of metal additive manufacturing. SLM Solutions has a proud technology heritage as one of the core inventors of the process and continues to push the boundaries of additive manufacturing thanks to the creativity of the Company's global workforce, of which >40% are engineers.

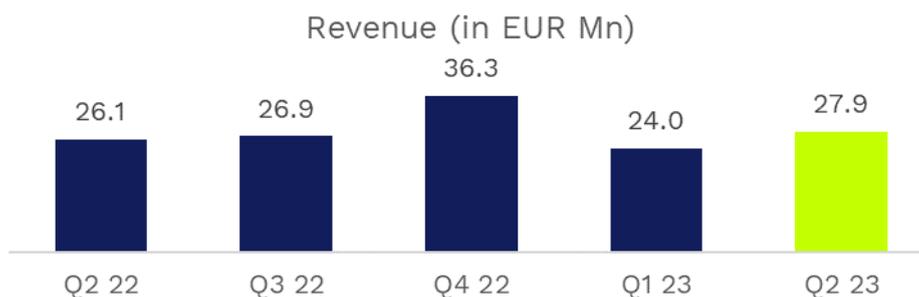

## RESULTS OF OPERATIONS

### Revenue

SLM Solutions generated revenues of kEUR 27,909 during the second quarter of 2023, marginally higher as compared to Q2 2022 (kEUR 26,087). The Company's robust topline performance in Q2 2023 along with a very strong Q1 2023 resulted in record revenues of kEUR 51,945 for the six-month period ending June 2023, 22% higher as compared to the corresponding period in 2022 (kEUR 42,474).

The Machine Business segment recorded revenues amounting to kEUR 41,398 during the first half of 2023, higher by 29% as compared to the first half of 2022 (kEUR 32,023). This increase was driven by the NXG XII 600 which has continued to witness broad based demand from a variety of customers. Additionally, SLM's topline was also supported by the existing portfolio of additive manufacturing systems which continue to enable various customers in their additive manufacturing processes.

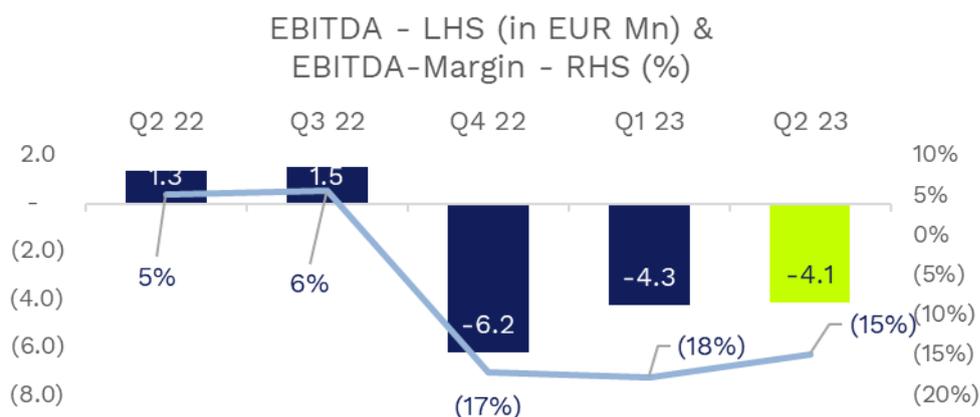

The After-Sales Business segment posted revenues of kEUR 10,547 for the first half of 2023, slightly higher as compared to the corresponding period in 2022 (kEUR 10,451). The After-Sales Business segment continues to grow at a steady pace, and benefits from increased adoption of the additive manufacturing technology among many customers.

### EBITDA

For the first six months of 2023, the Company posted an EBITDA of kEUR -8,404 (H1 2022: kEUR -3,032). Operational profitability during the first half of 2023 was impacted by adverse currency effects, a significant discount on a one-off order with a major customer along with an order for an NXG XII 600 with a notable component of variable compensation which would be due upon fulfillment of specific preconditions that were not fulfilled during the reporting period. Additionally, EBITDA for H1 2023 was also impacted by a significant increase in electricity expenses as well as extraordinary expenses due to the Nikon takeover.

In contrast, operational profitability during the first half of 2022 benefitted from positive one-off effects such as the reversal of provisions no longer required coupled with foreign exchange gains during H1 2022.

## FINANCIAL POSITION

### Net Assets

(in kEUR)	30.06.2023	31.12.2022
Total current assets	98,190	107,425
Total non-current assets	82,461	74,886
<b>Total assets</b>	<b>180,652</b>	<b>182,311</b>
Total current liabilities	48,617	35,398
Total non-current liabilities	44,898	82,659
<b>Total Liabilities</b>	<b>93,516</b>	<b>118,057</b>

Total assets as of the end of June 2023 amounted to kEUR 180,652 (Dec 2022: kEUR 182,311). This decrease in total assets was driven by a lower liquidity position, partially offset by a higher inventory position. As of the end of June 2023, SLM Solutions had a liquidity position of kEUR 9,679 (Dec 2022: kEUR 31,160). At the end of June 2023 SLM Solutions' inventory position amounted to kEUR 49,361 higher as compared to the end of December 2022 (kEUR 39,888) as the Company prepares for upcoming shipments. Furthermore, contract assets at the end of June 2023, increased to kEUR 17,439 (Dec 2022: kEUR 6,496) reflecting orders where a portion of the payment is due after installation of certain machines. This was partially offset by a lower balance of trade receivables as compared to year-end 2022.

Total Liabilities as of June 2023 amounted to kEUR 93,516 as compared to year-end 2022 (kEUR 118,057). Total current liabilities increased to kEUR 48,617 (Dec 2022: kEUR 35,398), following the receipt of a short-term loan from Nikon Europe B.V., a subsidiary of Nikon Corporation amounting to kEUR 10,000. Total non-current liabilities decreased to kEUR 44,898 (Dec 2022: kEUR 82,659). This decrease was primarily driven by the conversion of convertible bonds into equity shares amounting to kEUR 39,003 in total.

## Cash Flow

(in kEUR)	H1 2023	H1 2022
Net cash flows from operating activities	(20,634)	(10,531)
Net cash flows from investing activities	(10,480)	(5,239)
Net cash flows from financing activities	9,765	27,542
<b>Net increase / (decrease) in cash and cash equivalents</b>	<b>(21,350)</b>	<b>11,772</b>
Change in financing funds due to exchange rate changes	(131)	323
<b>Cash and cash equivalents at the beginning of the period</b>	<b>31,160</b>	<b>24,998</b>
<b>Cash and cash equivalents at the end of the period</b>	<b>9,679</b>	<b>37,093</b>

Net cash flows from operating activities during the first half of 2023 amounted to kEUR -20,634, as compared to H1 2022 (kEUR -10,531). Operating cash flows during the current reporting period were impacted by a significant increase in electricity expenses, a large order with a notable amount of variable compensation that would become due in upcoming periods, personnel expenses due to the Nikon takeover as well as an increase in contract assets during the reporting period also led to a decrease in operating cash flow.

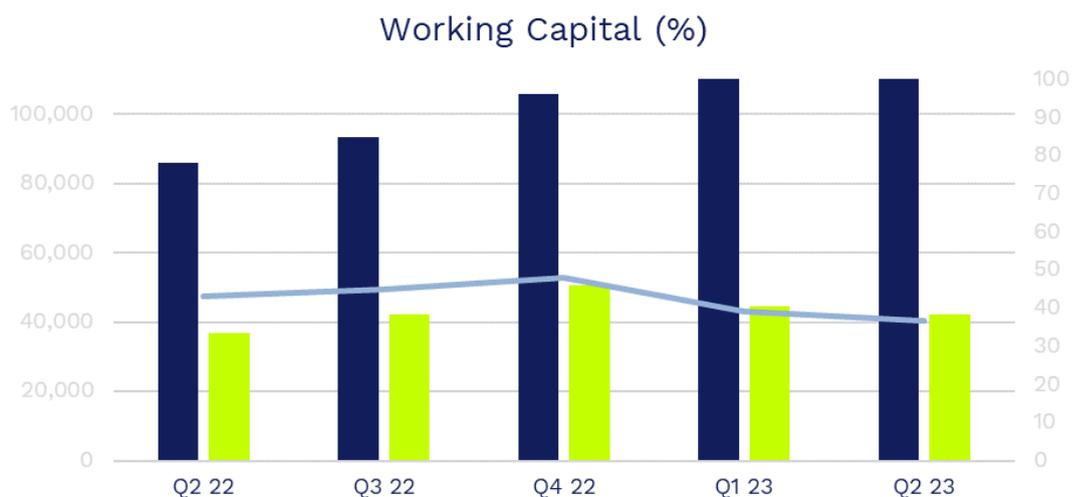

Net cash flows from investing activities during the first half of 2023 was kEUR -10,480, increasing as compared to H1 2022 (kEUR -5,239), as the Company continued to invest notably into its technology. This enables SLM Solution to remain at the forefront of innovation. Capitalized outlays in this regard amounted to kEUR -6,400 during H1 2023, higher by 38% as compared to the first half of 2022 (kEUR -4,640).

Net cash flows from financing activities during the first half of 2023 amounted to kEUR 9,765, as compared to H1 2022 (kEUR 27,542). During the first six months of 2023, SLM Solutions received a loan from Nikon Corporation in the amount of kEUR 28,700 to repay a majority portion of the 2017 convertible bond in the amount of kEUR 26,500. Additionally, SLM Solutions received additionally a short-term loan from Nikon Europe B.V., a subsidiary of Nikon Corporation amounting to kEUR 10,000. This cash inflow was partially offset by other financial cash outflows including interest payments, loans and finance lease repayments.

## Working Capital

Working capital as of the end of June 2023 amounted to kEUR 42,342, decreasing in comparison to year-end 2022 (kEUR: 50,712). This decrease is mainly due to a lower level of receivables combined with an increase in customer down-payments received from new machine orders, partially offset by a build-up of inventories over the first six months of 2023.

As a result of the lower level of working capital and a growing topline, the working capital intensity metric, which is calculated based on revenues over the last twelve months, further decreased to 37% at the end of June 2023.

■ Revenue LTM (kEUR)	85,853	93,425	105,709	113,358	115,180
■ Working Capital as on Balance Sheet Date (kEUR)	37,015	42,151	50,712	44,516	42,342
■ Working Capital Intensity (%)	43%	45%	48%	39%	37%

# OPPORTUNITITES AND RISKS

---

The opportunities and risks classified as action relevant on pages 65-72 in the Annual Report 2022 have been reviewed and are still considered relevant as of the issue date of this report. For further information on previously identified risks and opportunities, please refer to the detailed description in our Annual Report 2022, which is available on the Company's website [www.slm-solutions.com](http://www.slm-solutions.com) in the "Investor Relations" section under "Reports & Publications" and further under "Reports".

# FORECAST

---

As communicated in the Annual Report 2022, the Company expects to continue on its growth path in FY 2023 and expects notable sales growth. Furthermore, the Management Board expects a significantly improved EBITDA for FY 2023. Based on the performance in the first half of 2023, the management confirms its guidance. To achieve the guidance, it is critical that the business environment across SLM Solutions' key markets does not significantly worsen in the second half of FY 2023.

# NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the six-month period from 1 January to 30 June 2023

## NOTE 1: BASIS OF PREPARATION

The interim consolidated financial statements were prepared in line with the principles of International Financial Reporting Standards (IFRS), as applicable in the European Union, as well as with additional applicable provisions pursuant to Section 315e (1) of the German Commercial Code (HGB).

The interim consolidated financial statements have been prepared on the basis of amortized, historical cost of acquisition or production, and are presented in thousands of Euros (kEUR). Minor differences in figures can occur as the result of commercial rounding.

The interim consolidated financial statements were not audited by KPMG AG Wirtschaftsprüfungsgesellschaft or any other third party.

## NOTE 3: EVENTS AFTER THE BALANCE SHEET DATE

On July 13, 2023 SLM Solutions Group AG held its Annual General Meeting and the Management Board and Supervisory Board proposed to change the name of the Company to "Nikon SLM Solutions AG", a proposal that was resolved on and further adopted by the shareholders. Accordingly, the change in name is expected to become effective from the middle of August 2023.

## RESPONSIBILITY STATEMENT

We give our assurance that, to the best of our knowledge and in accordance with the applicable accounting principles, the interim consolidated financial statements give a true and fair view of the net assets, financial position and results of operations of the Group and that the course of business, including the business result and the position of the Group, is portrayed in such a way in the Group Management Report that a true and accurate picture is conveyed and that the significant opportunities and risks of the Group's future development are fairly described.
